### **DETAILED ACTION**

1. This Office action is in response to Application No. 09/586,387, filed on 6/2/2000.
2. Claims 1-84 are pending.

### ***Claim Objections***

3. Claims 3, 11, 18, 28, 29, 30-33, 36, 37-73, 76, and 80 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3, 11, 18, 28, 29, 30, 31, 36, 43, 49, 61, 62, 64, 76, 80, and 83 are rejected under 35 U.S.C. 101 because it is directed to non-statutory subject matter, specifically, as directed to an abstract idea.

Computer program not claimed as embodied in computer-readable media are descriptive material per se are not statutory because they are neither physical thing nor statutory processes. The claim recites a program for preventing an illegal use of digital contents which do not define any structural and functional interrelationships with a general purpose computer for permitting the claimed functions to be realized. In contrast, a statutory claim would define structural and functional interrelationships

between data structures or functional parts and a computer which permit the data functions to be realized. Thus, the claim is rejected as being non-statutory as described above. Applicant is advised to embed a computer or processor or module into the claims.

#### NOTE

5. Applicant is also advised to add the limitations of claims 44 or 47 or 65 into the claims in order to expedite prosecution.
